

Information for New Guitar Pupils

Instrument: Nylon strung classical guitar (recommended make: Jose Ferrer)
Size: If your child is under 135cm tall then choose a $\frac{3}{4}$ size guitar. If your child is taller than 135cm then a full size guitar (4/4) is needed. (N.B. avoid the guitar called “jumbo” as this, although a full size instrument, has a larger body which will be too big)

If buying directly from a shop you may be able to try out different sizes and pick a comfortable size.

Extra equipment: A guitarist’s foot stool (not an expensive item) is necessary for correct support.

Book: “The Guitarist’s Way book 1” by Peter Nuttal and John Whitworth.
